

Second Annual Metabolomics Symposium: Exploring the Human Metabolome Poster Guidelines

The Human Metabolome Project Metabolomics Symposium invites all attendees to consider presenting a poster. Poster presentations describing original research in almost any area that involves the development and application of advanced experimental or computational methods for metabolomics are welcome.

Before submitting your poster abstract, please note the following:

All abstracts must be submitted to Ian Forsythe (iforsythe@genomealberta.ca).

You need to submit a 200 word (maximum) abstract in the form below.

- Title
- Presenting Author: Name, Institution, E-mail and Street Address
- Supporting Authors: Name, Institution
- Abstract (200 word maximum).
- At least one of the poster authors must be present at the conference.

Due to space constraints, the size of the poster boards will be: 3 ft high x 4 ft wide

Fasteners will be provided at the site, please DO NOT bring tape, tacks or pins.
PLEASE NOTE: Abstracts will be published as they are RECEIVED. Please ensure that your text is complete and correct when submitted. Special characters such as Greek letters and super/subscripts may not translate into the programs used to create the abstract book.
